Protect & Preserve	Item number	Available online 
1 Dethleffs sunblind Heat and unwanted snooping don't stand a chance. The mat is almost opaque from the outside and ensures that it doesn't get too hot in the cab, your upholstery does not fade and your privacy is protected. Particularly practical: With the coated textile fabric, you always have a clear view to the outside.		
For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer (from model year 2007)	2865144	
2 Dethleffs thermo window mat (external insulation) With the high-quality thermo window mat made of weatherproof, strong PE fabric that reliably insulates your vehicle's windows and doors, you'll be perfectly equipped for every season. Particularly in the winter months, it prevents the absorption of moisture with its 20 mm thick polyester layer. It also protects the vehicle interior from heat in the summer.		
For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer (from model year 2007)	2893029	
3 Dethleffs bottom section for the thermo window mat For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer (from model year 2007)	3007147	
4 Dethleffs sun screen insert for windshield with Velcro fastener for thermo window mat For summer and winter: In addition to the thermo window mat, we offer a removable, perfect-fit sun screen insert as an option, enabling an unobstructed view of the outside even when the mat is installed. Only possible in combination with the Dethleffs thermo window mat (item no. 2893029).		
For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer (from model year 2007)	2893034	

You can find more detailed information and item features online at www.dethleffs-original-zubehoer.com or in our online shop at www.shop.dethleffs.de

Protect & Preserve	Item number	Available online 
1 Dethleffs dashboard and footwell insulation Bid farewell to draughts and cold feet – with the right equipment from Dethleffs Original Accessories, cold spots and unpleasant draughts from the footwell are a thing of the past, even in frosty temperatures. Thanks to the integrated flap, you can operate the radio at any time.		
For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer (from model year 2007)	3012173	
2 Dethleffs thermal insulation for the rear The foldable rear insulation consists of foam insulation that is approx. 8 mm thick, which fits tightly to the outer contours of your Dethleffs camper van. This helps it keep the cold outside! Beige polyester velour towards the interior makes for a cosy and homey ambience. Precisely fitted openings allow the windows to be operated at any time.		
For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer (from model year 2007)	3331705	
3 Dethleffs mosquito net for the rear This mosquito net provides natural protection from mosquitoes and insects, allowing you to enjoy mild summer nights in the great outdoors undisturbed. With the 2-way zipper, you can enter and reach through from the inside and outside at any time.		
For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer (from model year 2007)	3331711	
4 Dethleffs driver's cabin carpet including step shaft mats for driver and passenger doors The Dethleffs easy-care and durable driver's cabin carpets made of tufted polypropylene velour are equipped with a bonded-on heel protector and rubber granulate backing. To prevent the mats from slipping, all carpets are equipped with additional fasteners.		
For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer (from model year 2020)	3155763	
For camper vans on Ford Transit (manual transmission)	3394157	
For camper vans on Ford Transit (automatic transmission)	3411569

Dethleffs Smart Battery System

Enjoy the freedom of a self-sufficient on-board power supply.

The Dethleffs Smart Battery System brings together the unparalleled performance of lithium batteries with the lead-acid batteries that are installed as standard. It's an impressive combination featuring much greater power, a significant increase in self-sufficiency, an extension of the service life of the entire system and lower costs with regard to the overall operating time.

You want to increase your charging capacity? The Smart Battery System features a truly intelligent solution for even more self-sufficiency through the installation of two or more lithium batteries.

	Travel and transport solutions	Item number	Available online
1	Dethleffs Smart Battery System – 2-Block system without charge level indicator Retrofit package 50 Ah LI battery; weight approx. 6.8 kg; nominal capacity 56 Ah		
	For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer	3071889	
2	Dethleffs Smart Battery System – 5-Block Retrofit package 125 Ah LI battery; weight approx. 17 kg; nominal capacity 140 Ah		
	For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer – without charge level indicator	3346941	
	For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer – with charge level indicator	3365821	
3	Dethleffs charge level indicator (display) for Dethleffs Smart Battery System The charge level indicator can be optionally mounted to the 2-Block or 5-Block system. This allows the state of charge of the battery system (lithium batteries and lead-acid batteries) to be displayed at any time.*		
	For camper vans on Fiat Ducato/Citroën Jumper/Peugeot Boxer – including cable sets for display	3382331	

You can find more detailed information and item features online at www.dethleffs-original-zubehoer.com or in our online shop at www.shop.dethleffs.de

* The standard display in the motorhome is not designed for this.

All benefits at a glance

Extended periods of self-sufficient operation in average use.

If required, the system can also be easily extended by one or more blocks on an incremental and modular basis as required.

Extends the service life of the lead-acid battery by up to 10 years.

The only LiFeP04 battery with electronic approval on the market.

20 kg weight savings with the same capacity (compared to retrofitting with a lead-acid battery).

The system is suitable for winter use thanks to integrated battery heating.

The added safety of LiFeP04: Overheating and fire are impossible!

Thanks to intelligent battery management, the existing charging technology (electric block and any auxiliary chargers) is unaffected

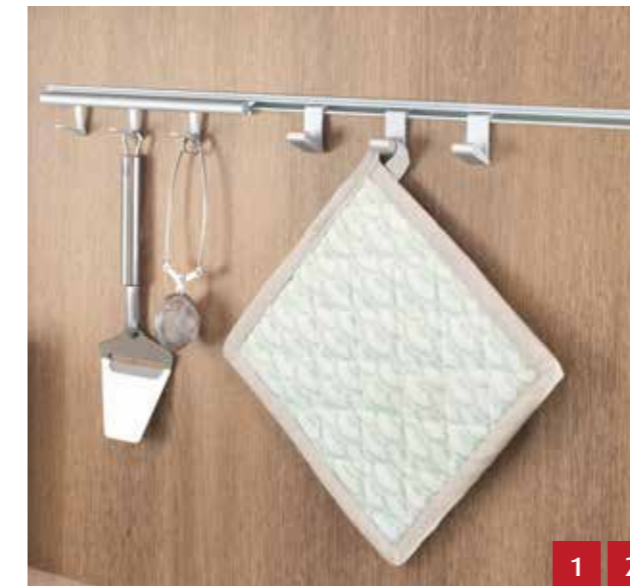

Travel and transport solutions		Item number	Available online

Dethleffs Bike Carrier

The smart, lightweight Dethleffs Bike Carrier lets you store your bicycles safely and efficiently for the journey to your holiday destination. The system is extremely simple to use – the permanently mounted mounting bar can be easily adapted and attached to any rear garage. Two holding arms for bicycles or e-bikes can be loaded and secured with ease: push the bicycle into the clamp (it will stand there unsupported) and secure it with the holding arm.

	Travel and transport solutions	Item number	Available online 
1 Dethleffs Bike Carrier	Safely transport your bike in the rear garage. You can use the Bike Carrier to easily secure bicycles or e-bikes in the rear garage in a space-saving manner.		
	For two bicycles	3236639	
	Extension set for 1 bike	3247019	
2 Dethleffs Bike Carrier wheel tray holder	Mountain bikes with wider tyres can also be transported safely with this solution – simply unscrew the existing tray and replace it with a new tray that is suitable for a tyre width of 50 to 90 mm.		
	Wider wheel tray holder	3398770	

You can find more detailed information and item features online at www.dethleffs-original-zubehoer.com or in our online shop at www.shop.dethleffs.de

Dethleffs Smart Battery System

Now enjoy the freedom of a self-sufficient on-board power supply.

The Dethleffs Smart Battery System brings together the unparalleled performance of lithium batteries with the lead-acid batteries that are installed as standard. It's an impressive combination featuring much greater power, a significant increase in self-sufficiency, an extension of the service life of the entire system and lower costs with regard to the overall operating time.

	Travel and transport solutions	Item number	Available online
	Dethleffs Smart Battery System The Dethleffs Smart Battery System (with lithium battery) is ideal for customers who want to retrofit a second battery (or even more) in order to increase the available capacity.		
1	2-Block system with 50 AH LI battery without charge level indicator; weight approx. 6.8 kg; nominal capacity 56 Ah	3071889	
2	5-Block system with 50 AH LI battery without charge level indicator; weight approx. 17 kg; nominal capacity 140 Ah	3346941	
2/3	5-Block system with 50 AH LI battery including charge level indicator; weight approx. 17 kg; nominal capacity 140 Ah	3365821	
3	Dethleffs charge level indicator (display) for Dethleffs Smart Battery System The charge level indicator can be optionally mounted to the 2-Block or 5-Block system. This allows the state of charge of the battery system (lithium batteries and lead-acid batteries) to be displayed at any time.*		
	Including cable sets for display	3382331	

You can find more detailed information and item features online at www.dethleffs-original-zubehoer.com or in our online shop at www.shop.dethleffs.de

* The standard display in the motorhome is not designed for this.

All benefits at a glance

Extended periods of self-sufficient operation in average use.

If required, the system can also be easily extended by one or more blocks on an incremental and modular basis as required.

Extends the service life of the lead-acid battery by up to 10 years.

The only LiFeP04 battery with electronic approval on the market.

20 kg weight savings with the same capacity (compared to retrofitting with a lead-acid battery).

The system is suitable for winter use thanks to integrated battery heating.

The added safety of LiFeP04: Overheating and fire are impossible!

Thanks to intelligent battery management, the existing charging technology (electric block and any auxiliary chargers) is unaffected
